

THE WAYSIDE GLADIOLUS GARDEN
ELLA W. WRIGHT, PROP.
CANTON, MAINE

Hello, "Glad" Folks:

Time to select the glad varieties you want to plant in your garden this spring. We hope our selection of varieties for 1954 will please you. In order to keep our list right up to the minute, we have dropped many of the older varieties. If you saw some varieties in our garden last summer that you liked and we have not listed them, please do not hesitate to write us about them, as we may have them.

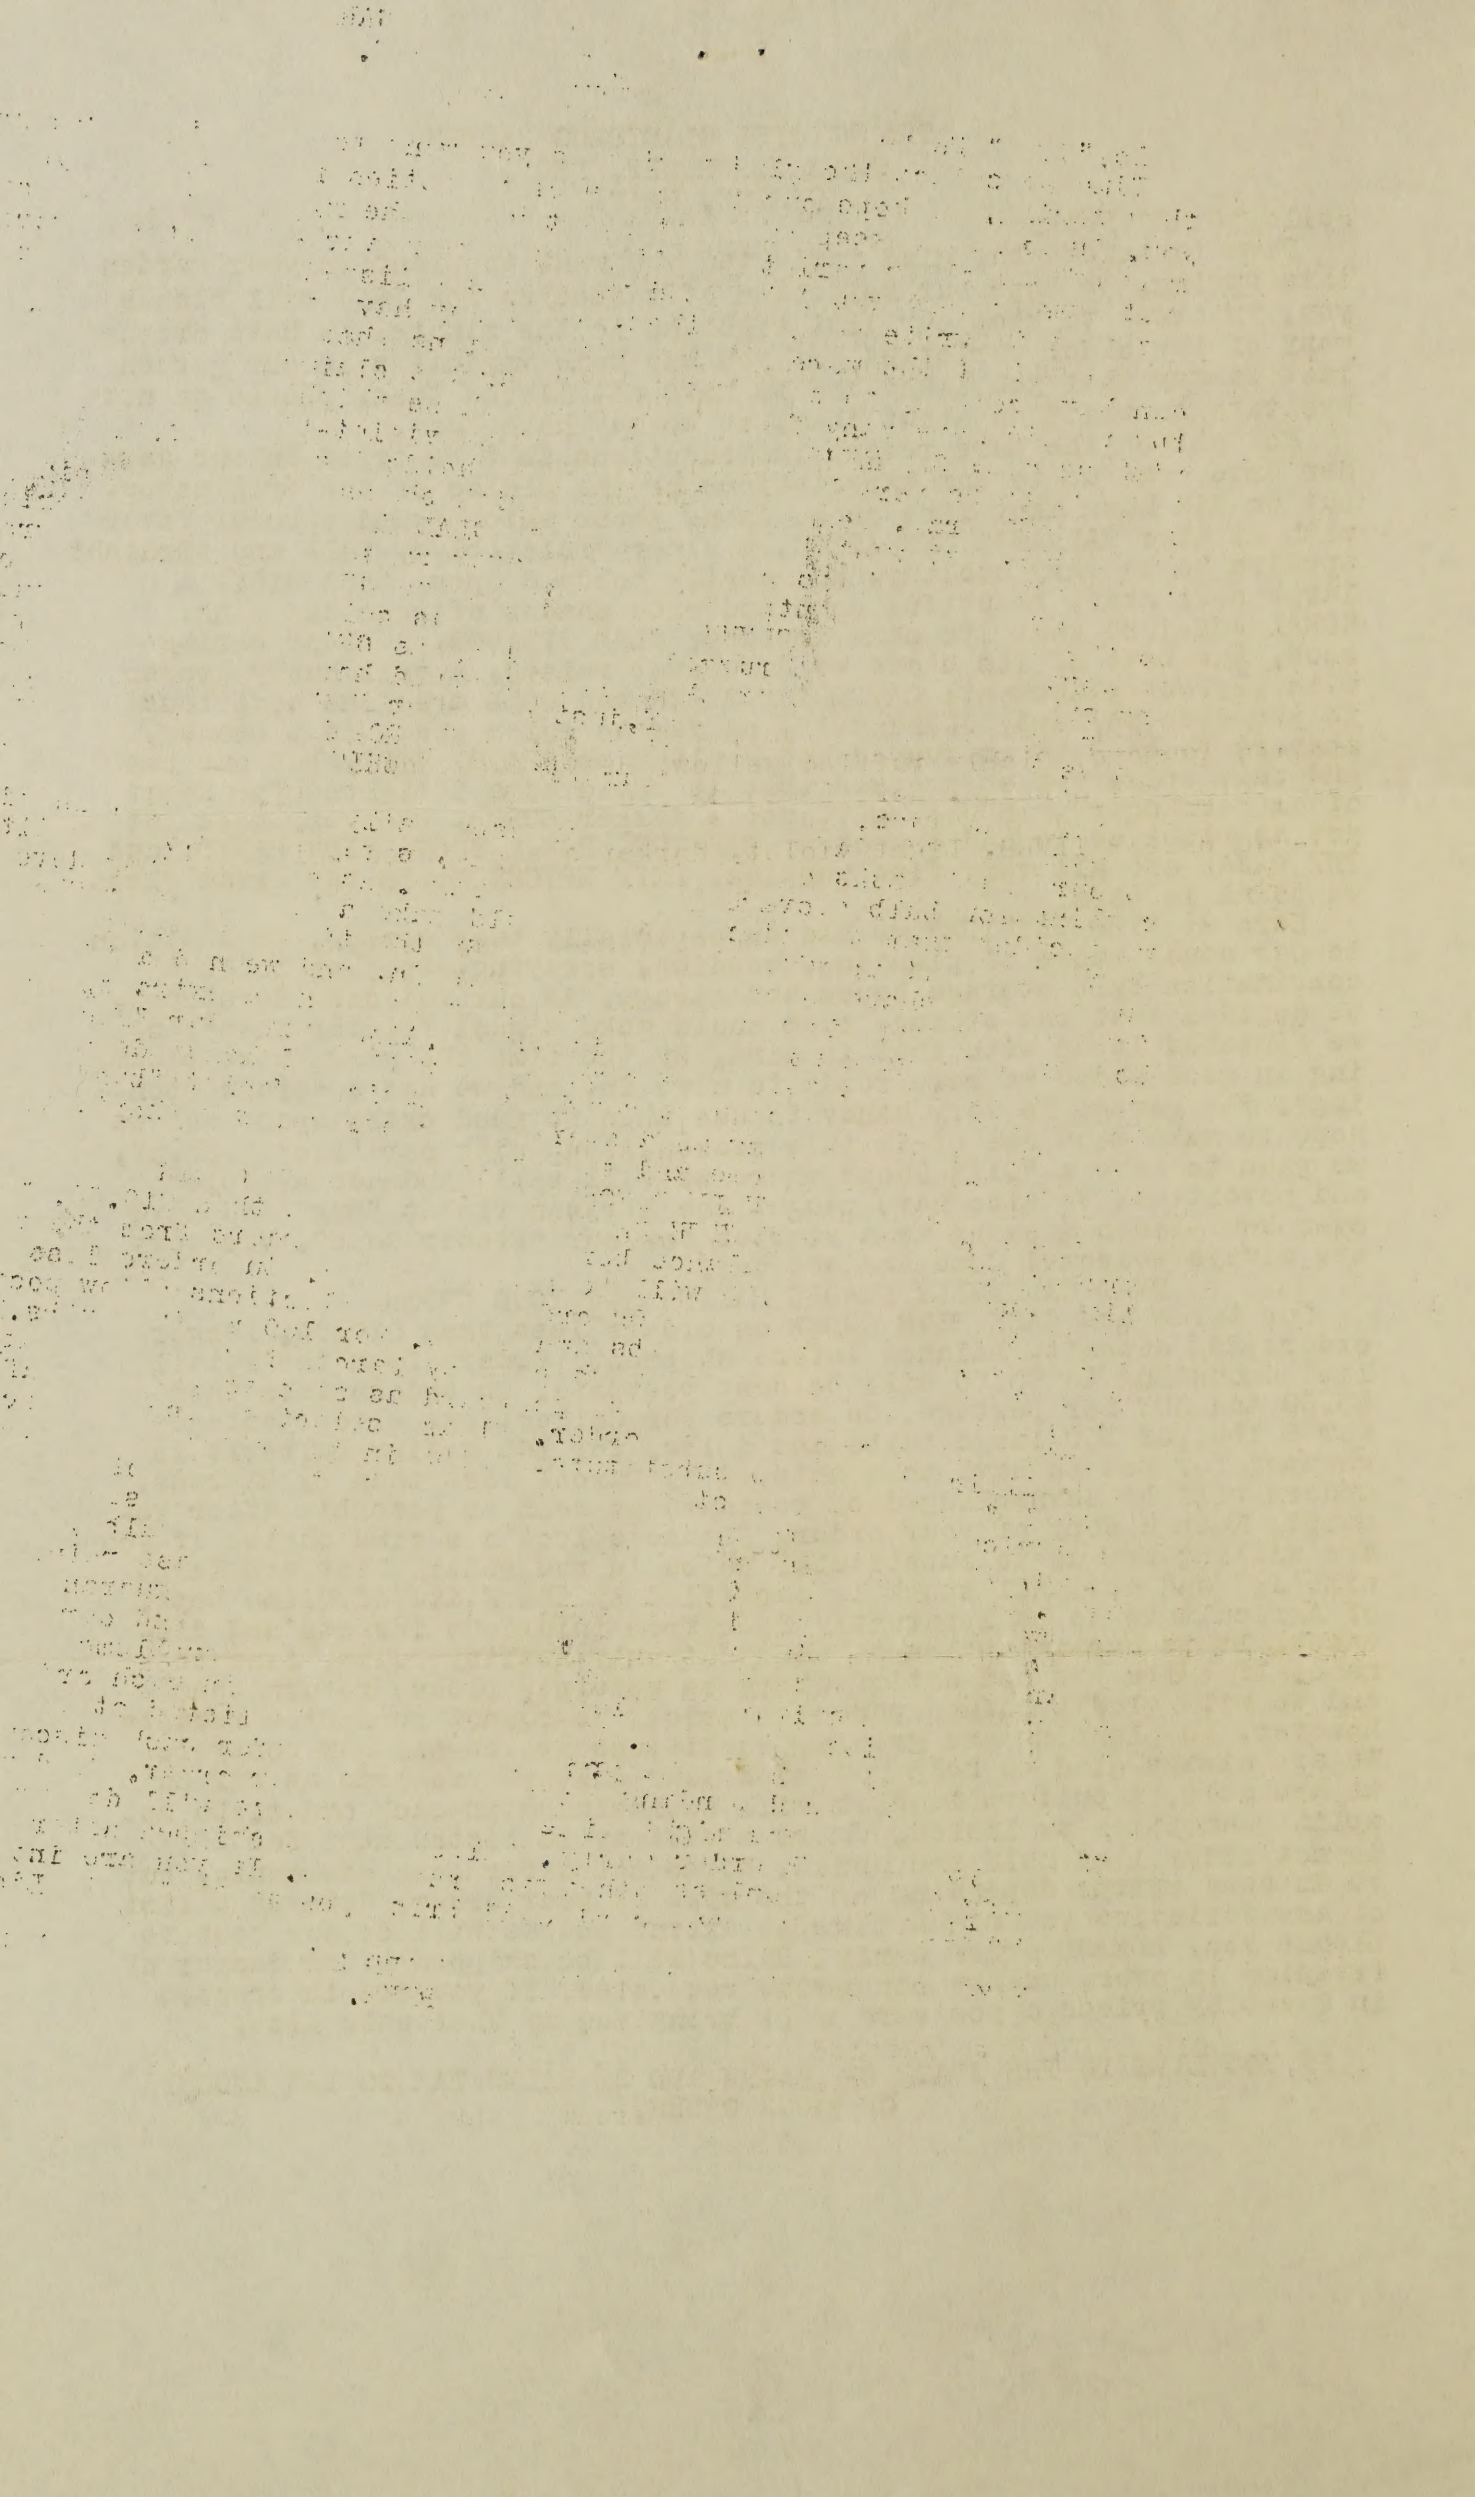

Not all of the more recent introductions that we tried in our garden have come up to our expectations or the claims of the originator, but we did have many fine ones. Among those which found special favor with us are: SALMAN'S SENSATION, a clear violet-blue, tall and straight appears to be very healthy, and easily holds 8 open; MESA MIST, a large soft gray, beautiful combined with shades of rose and pink; CORAL ACE, just what its name implies; GLAD TIDINGS, a clear cerise rose, the best of its shade we have ever raised, a tall husky grower with perfect placement; CATHERINE BEATH and GOLD are fine additions to the deep yellows; SUNNY CHIP, as far as color goes, is a beauty, appears to be just as rugged and healthy as ORANGE GOLD, but our one and only spike was so crooked that it would have delighted the heart of an "arranger". THUNDERBOLT, just a darker BURMA, was very nice but not as black as we had expected; PASSION, ROYAL SCOT, KING DAVID, and THE RAJAH are all very fine purples; LEIF ERICSSON, in the cream class we think is tops.

Here at "THE WAYSIDE" we had an especially busy season. In addition to our usual tasks of planting, weeding, spraying, etc., we built a combination bulb storage house and garage. As our building developed, we decided that the storage room would make a good "Flower Shop", so we finished it up with that in mind. By the time the glads were blooming in good shape we were ready to move in, and we had a "Grand Opening". The garage is very handy to use when we need extra space and we hope to make good use of it this season. Along with our "Flower Shop", we plan to have a "Gift Shop" where we will sell handmade articles and novelties. We also have caught the African Violet "bug" and have over 200 plants growing as a starter for our "Flower Shop". Visitors are always welcome! Come and see us!!

READ CAREFULLY BEFORE MAKING OUT YOUR ORDER

Our terms are CASH WITH ORDER on orders less than \$10.00. Larger orders, 25% deposit, balance before shipment. Orders from the retail list amounting to \$3.00 will be sent postpaid. On orders less than \$3.00 add 30¢ for postage. On orders for Collections allow postage for 8 lbs. per 100 large bulbs and 4 lbs. for 100 medium bulbs. It is cheaper for you to have them shipped by Parcel Post than by Express. Orders will be acknowledged by postcard as soon as possible after receipt. Keep a copy of your order. Please select a second choice if you are willing for us to substitute. Bulbs in the retail list are large size (1½" and up). All stock is certified by the State of Maine Dept. of Agriculture to be apparently free from injurious insects and diseases. It is our intention to send out only healthy bulbs, true to name. If bulbs are not satisfactory on receipt, please return them and we will gladly refund purchase price. We cannot guarantee results however, as planting and growing conditions are beyond our control. We are always glad to help you with your culture problems as far as we are able. A culture leaflet will be included in each order. Do not split quantities as listed. Where a variety is listed at 2 for 25¢ do not order 1 at half the price. We do not offer cash discounts, but we do send extras depending on the size of your order. Send us a list of any varieties you might like as extras and we will do our best to please you. PLEASE order early. Bulbs will be shipped after danger of freezing is over, unless otherwise requested. If you are interested in Quantity prices a postcard will bring you my Wholesale List.

IF YOU LIVE IN THE STATE OF MAINE ADD 2% SALES TAX TO THE AMOUNT OF YOUR ORDER.

RETAIL PRICE LIST 1954

CLASSIFICATION CODE

There are two numbers before the name of each variety in this list. The first is the Classification number. It tells you the size of the florets and the color. The second number is the year of introduction. The first figure in the Classification number denotes the size of floret. 500 series denotes Giant size, 400 series denotes large size, and 300 series denotes medium size. The last two figures in the Classification number indicate color. 00 White, 06 Cream, 10 - 12 Light and Deep Yellow, 16 Buff, 20 - 22 - 24 Light, Deep and Red-Orange, 30 - 32 Light and Deep Salmon, 36 Scarlet, 40 - 42 Light and Deep Pink, 50 - 52 - 54 Light, Deep and Black Red, 60 - 62 Light and Deep Rose, 66 Lavender, 70 Purple, 76 - 78 Light and Deep Violet, 80 Smoky, 90 Any Other Color. If the last figure is odd as 501, this indicates a conspicuous throat blotch.
